CAT. NO - STAINOTR002 • FORMAT - MP3 - 2011

Stainage opens its dubplate vault again in 2011 to give you a delicious future garage treat. OTR002 features 3 tracks produced by Dusk Creator, Grimelock and Hush remixed by Bunzer0.

"After The Fire" and "Deliver Us" are flexing with class in future garage style while "I Feel" gets a half tempo mutation courtesy of BunzerO. The mood is shifting from dancefloor grooves and soulful bits to deep dense textures that have a cinematic feel and surgically clean production with an almost scary attention to detail.

If OffTheRecords 002 is just a small taster of the forthcoming Stainage releases then be warned because it's looking like this is just the top of the iceberg.
